General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON JANUARY 15, 1986

[49 CFR Part 1048]

EX PARTE No. MC-37 (Sub-No. 38)

PETITION TO ESTABLISH A COMMERCIAL ZONE OF CAMERON, HIDALGO, STARR, AND WILLACY COUNTIES, TX

AGENCY: Interstate Commerce Commission.

ACTION: Notice of final rule.

SUMMARY: The Commission is amending the commercial zone regulations at 49 CFR Part 1048 to define a commercial zone embracing Cameron, Hidalgo, Starr, and Willacy Counties, TX, for transportation by motor carriers of property. As permitted under 5 U.S.C. 553(d)(3), the rule will be made effective on the date of publication rather than 30 days later, so that carriers holding certificates of registration under 49 U.S.C. 10530 are not delayed in serving the expanded zone. Notice of the proposed rule change was published July 31, 1985, in the ICC Register and the Federal Register, 50 FR 30981.

EFFECTIVE DATE: January 15, 1986.

FOR FURTHER INFORMATION CONTACT:

Suzanne Higgins (202) 275-7181 or Howell I. Sporn (202) 275-7691

SUPPLEMENTARY INFORMATION:

Additional information is contained in the full Commission decision which is available for public inspection at the Office of the Secretary, Room 2215, 12th Street and Constitution Avenue, N.W., Washington, DC 20423. Copies may be purchased from T.S. Infosystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call (800) 424-5403, or (202) 289-4357 in the Washington, DC, metropolitan area.

The Commission certifies that the adopted rule will not have a significant economic impact on a substantial number of small entities. Defining a unified commercial zone consisting of Cameron, Hidalgo, Starr, and Willacy Counties, TX, will maintain the commercial status quo in the Rio Grande Valley. The rule will enable Mexican motor carriers of property operating under certificates of registration to continue as transportation resources for the businesses they have previously served as private or exempt carriers. By permitting continuation of essential cross-border property operations, the rule will sustain the commercial viability of the lower Rio Grande Valley area affected.

The adopted rule will not affect significantly the quality of the human environment or the conservation of energy resources.

The index terms for 49 CFR 1048 are: Motor Carriers of Property and Commercial Zones.

Authority: 49 U.S.C. §§10321 and 10526 and 5 U.S.C. §553.

Dated: December 23, 1985.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Taylor, Sterrett, Andre, Lamboley, and Strenio. Commissioner Strenio concurred in the result. Commissioner Lamboley concurred with a separate expression. Commissioner Taylor did not participate.

James H. Bayne
Secretary

APPENDIX

Title 49 of the Code of Federal Regulations, Part 1048, is amended as follows:

Part 1048 [Amended]

A new §1048.21 is added to read as follows:

§1048.21 Cameron, Hidalgo, Starr, and Willacy Counties, TX

Transportation within a zone comprised of Cameron, Hidalgo, Starr, and Willacy Counties, TX, by motor carriers of property, in interstate or foreign commerce, not under common control, management, or arrangement for shipment to or from points beyond such zone, is partially exempt from regulation under section 10526(b)(1) of the Interstate Commerce Act [49 U.S.C. 10526(b)(1)].

To the extent that commercial zones of municipalities within the four counties (as determined under 49 CFR 1048.101) extend beyond the boundaries of this four-county zone, the areas of such commercial zones shall be considered to be part of the zone and partially exempt from regulation under section 10526(b)(1).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

MOTOR CARRIERS: NOTICE OF EXEMPTION FROM 49 U.S.C. 11343

AGENCY: Interstate Commerce Commission

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and

(2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

FOR FURTHER INFORMATION CONTACT:

Warren C. Wood
(202) 275-7977

SUPPLEMENTAL INFORMATION:

Further information concerning the transaction proposed for exemption is contained in the Notice of Exemption. A copy of the Notice of Exemption may be obtained free of charge by contacting petitioner's representative. In the alternative, the Notice of Exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

For transactions involving the merger of two or more carriers or the purchase of motor carrier operating authority, petitioners may obtain revised certificates by notifying the Commission that the transaction has been consummated and by complying with the following administrative requirements set forth in the Code of Federal Regulations: insurance (49 CFR 1043), designation of process agents (49 CFR 1044), and tariffs (49 CFR 1312).

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

TLC FREIGHT SERVICES, INC. -- PURCHASE EXEMPTION --

Douglas J. McNeil, Esq.
Culver, Lague & McNally
500 Terrace Plaza
Muskegon, MI 49443

Comments should refer to No. MC-F-16972.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition by TLC Freight Services, Inc. (TLC) (presently a non-carrier) of a portion of the operating authority now held by Taylor Warehousing Services, Inc. (Taylor) (No. MC-170767), namely, Taylor's Sub-No. 2 permit.

TLC was formed on November 20, 1985, as an affiliate of Taylor. Its affiliate status arises because Craig T. Hall, TLC's chairman and a 50 percent shareholder in TLC, is Taylor's president and chief executive officer, and a 10 percent shareholder in Taylor. Upon TLC's becoming a regulated carrier through this transaction, Hall will control two motor carriers.

Taylor's Sub-No. 2 permit, issued November 13, 1985, authorizes the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities.

An application for temporary authority to lease Taylor's Sub-No. 2 permit was granted on December 23, 1985.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

AGENCY: Interstate Commerce Commission.

ACTION: Final Rules.

SUMMARY: The Commission exempts from regulation acquisitions and operations under 49 U.S.C. 10901. This exemption does not apply when a class I railroad abandons a line and another class I railroad then acquires the line in a transaction that results in a major market extension as defined at 49 C.F.R. 1180.3(c). To qualify for this exemption, applicant must file a verified notice providing information about the transaction. The new rules are set forth at 49 C.F.R. 1150, Subpart D, Exempt Transactions (See attached appendix).

DATES: The rules are effective February 17, 1986.

FOR FURTHER INFORMATION CONTACT:

Louis E. Gitomer

APPENDIX

1. The authority citation for 49 CFR Part 1150 is revised to read as follows:

Authority: 49 U.S.C. 10321, 10901, and 10505; and 5 U.S.C. 553.

2. Title 49, Subtitle B, Chapter X, Part 1150 of the Code of Federal Regulations is amended by adding a new Subpart D, reading as follows:

Subpart D - Exempt Transactions

1150.31 Scope of exemption.
1150.32 Procedures and relevant dates.
1150.33 Information to be contained in notice.
1150.34 Format for caption summary.

Subpart D Exempt Transactions

1150.31 Scope of exemption.

(a) Except as indicated below, this exemption applies to all acquisitions and operations under section 10901 (See 1150.1, supra). This exemption also includes: (1) acquisition by a noncarrier of rail property that would be operated by a third party; (2) operation by a new carrier of rail property acquired by a third party; (3) a change in operators on the line; and (4) acquisition of incidental trackage rights. Incidental trackage rights include the grant of trackage rights by the seller, or the assignment of trackage rights to operate over the line of a third party that occur at the time of the exempt acquisition or operation. This exemption does not apply when a class I railroad abandons a line and another class I railroad then acquires the line in a proposal that would result in a major market extension as defined at 49 C.F.R. 1180.3(c).

(b) Other exemptions that may be relevant to a proposal under this Subpart are the exemption for control at 49 C.F.R. 1180.2(d)(1) and (2), and the exemption from securities regulation at 49 C.F.R. 1175.

1150.32 Procedures and relevant dates

(a) To qualify for this exemption, applicant must file a verified notice providing details about the transaction, and a brief caption summary, conforming to the format in 1150.34, for publication in the Federal Register.

(b) The exemption will be effective 7 days after the notice is filed. The Commission, through the Director of the Office of Proceedings, will publish a notice in the Federal Register within 30 days of the filing. A change in operatons would follow the provisions at 49 C.F.R. 1150.34, and notice must be given to shippers.

(c) If the notice contains false or misleading information, the exemption is void ab initio. A petition to revoke under 49 U.S.C. 10505(d) does not automatically stay the exemption.

1150.33 Information to be contained in notice.

(a) the full name and address of the applicant;

(b) the name, address, and telephone number of the representative of the applicant who should receive correspondence;

(c) a statement that an agreement has been reached or details about when an agreement will be reached;

(d) the operator of the property;

(e) a brief summary of the proposed transaction, including (i) the name and address of the railroad transferring the subject property, (ii) the proposed time schedule for consummation of the transaction, (iii) the mile-posts of the subject property, including any branch lines, and (iv) the total route miles being acquired;

(f) a map that clearly indicates the area to be served, including origins, termini, stations, cities, counties, and States; and

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

No decision will be issued unless opposing comments are received. If opposing comments are received, a decision addressing the comments and either denying or granting the application, with or without conditions, will be served. General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

TLC FREIGHT SERVICES, INC. -- PURCHASE EXEMPTION -- ZEELAND FARM SERVICES, INC.

TLC Freight Services, Inc.
449 Howard

Douglas J. McNeil, Esq.

500 Terrace Plaza

and Robert G. Meeuwsen, President
Zeeland Farm Services, Inc.
2468 84th Avenue
Zeeland, MI 49464

Comments should refer to No. MC-F-16971.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition by TLC Freight Services, Inc. (TLC) (presently a non-carrier) of five certificates and one permit now held by Zeeland Farm Services, Inc. (Zeeland) (No. MC-145042), namely, Zeeland's Sub-Nos. 10, 11, 18, 20, & 21 certificates and its Sub-No. 15 permit.

TLC was formed on November 20, 1985, as an affiliate of a regulated carrier, Taylor Warehousing Services, Inc. (Taylor) (No. MC-170767). Its affiliate status arises because Craig T. Hall, TLC's chairman and a 50 percent shareholder in TLC, is Taylor's president and chief executive officer, and a 10 percent shareholder in Taylor. Upon TLC's becoming a regulated carrier through this purchase, Hall will control two carriers.

Zeeland's pertinent certificates authorize the transportation of (a) such commodities as are dealt in or used by manufacturers and distributors of bakery goods and products, between points in Illinois, Indiana, Minnesota, New York, Ohio, and Wisconsin, on the one hand, and, on the other, points in Kent, Ottawa, and Wexford Counties, MI, (b) food and related products, between points in Michigan, on the one hand, and, on the other, points in Illinois, Indiana, Ohio, Wisconsin, Minnesota, North Dakota, South Dakota, Iowa, Missouri, Kentucky, Tennessee, West Virginia, Pennsylvania, New York, New Jersey, Noth Carolina, Virginia, and Flordia, (c) food and related products, between those points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, (d) glass, metal and metal products, and plastic and plastic products, between points in Michigan, on the one hand, and, on the other, points in Ohio, Illinois, and Pennsylvania, and (e) general commodities (except classes A and B explosives and household goods) between points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas. Zeeland's pertinent permit authorizes the transportation of food and related products, and animal foods (except in bulk), between points in the United States (except Alaska and Hawaii), under continuing contract(s) with the Campbell Soup Company, of Camden, NJ.

An application for temporary authority to lease Zeeland's involved operating rights was granted on December 30, 1985.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE NO. MC-175

INTERNATIONAL JOINT THROUGH RATES INVOLVING OCEAN CARRIERS--REVISION OF TARIFF FILING REQUIREMENTS

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: Pursuant to vote in an open voting conference held on October 9, 1985, the Commission is amending 49 CFR 1312.37 by eliminating the requirement at (c)(1) that international joint through rate tariffs involving ocean carriers include the division or rate to be received by the domestic carrier for its share of the revenue covering a through shipment or aggregate of shipments under the tariff. The filing will, however, be made permissive rather than be proscribed. The Commission is also amending section 1312.37 at (b) to permit the filing of an abbreviated tariff specifically referring to a more detailed tariff(s) on file with the Federal Maritime Commission (FMC). Full tariff information will still have to be provided to the Commission where there is no FMC filing to incorporate by reference.

These revisions are made to achieve consistency with the pro-competitive rate provisions of the Shipping Act of 1984. Upon effectiveness of these rules, the Commission's special permission relief, allowing temporary waiver from filing of the inland division breakout, will terminate.

EFFECTIVE DATE: February 24, 1986.

SUPPLEMENTARY INFORMATION:

Additional information is contained in the full Commission decision which is available for public inspection at the Office of the Secretary, Room 2215, 12th Street and Constitution Ave, N.W., Washington, DC 20423. Copies may be purchased from T.S. ENERGY AND ENVIRONMENTAL CONSIDERATIONS

This action will not affect significantly either the quality of the human environment or the conservation of energy resources.

FINAL REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that these final rules will not have a significant economic impact on a substantial number of small entities. The changes will bring Commission regulations into harmony with the pro-competitive rate provisions of the Shipping Act of 1984.

APPENDIX

Part 1312 is amended as follows:

(1) The authority citation for 49 CFR Part 1312 will continue to read as follows: Authority: 49 U.S.C. 10762; 5 U.S.C. 553.

(2) 49 CFR Section 1312.37 is amended by revising paragraphs (b), (c), and (d), to read as follows:

§1312.37 Export and import traffic and joint rates with ocean carriers.

x x x x x

(b) Through routes and joint rates. (1) A domestic carrier may establish a through route and joint rate with a non-vessel or vessel operating ocean carrier for the transportation of property between any place in the United States and any place in a foreign country. Tariffs for such service shall be filed with the Commission in either long form or abbreviated form, as follows:

(1) The long-form tariff shall name the through routes and joint rates, and may be filed in the name of the ocean carrier, a conference of ocean carriers, the domestic carrier, or the publishing agent of the carriers.

(2) an abbreviated tariff shall refer to a specific tariff(s) on file with the Federal Maritime Commission (FMC) containing the joint through rates in which the domestic carrier participates, and shall be filed in the name of the domestic carrier or the publishing agent of the domestic carrier.

(c) Tariff Provisions. (1) Tariffs filed with the Commission under the provisions of (b)(1) above shall comply with all of the other requirements of this part. The division or rate to be received by the domestic carrier for its share of the revenue covering a through shipment or aggregate of shipments may, but need not, be shown in the tariff.

(2) Abbreviated tariffs filed under the provisions of(b)(2) above shall comply with the relevant format requirements, including those pertaining to "participating carrier" publications.

(3) A tariff filed in the name of a conference need not show "Agent" after the name of the conference unless the conference publishes as an agent.

(4) "Cargo, N.O.S." may be used as a commodity description provided the term is clearly defined in the tariff.

(d) Changes on less than statutory notice. (1) Abbreviated tariffs, or amendments thereto, filed under the provisions of (b)(2) above may be filed to become effective on a specified date on not less than one-day's notice.

(2) For tariffs filed under the provisions of (b)(1) above that include the division or rate accruing to the domestic carrier, the following changes may be published by amendment to the tariff to become effective on a specified date not prior to the date filed with the Commission:

(i) A change in a published rate or other provision which results in reduction or in no change in charges, provided that there is no change in the separately stated division or rate accruing to the domestic carrier or a provision governing or affecting that division or rate. This includes a change in a rate that results in lessening or canceling a proposed (i.e., published but not yet effective) increase; and

(ii) The establishment of a rate on a specific commodity not previously named in a tariff which results in a reduction or no change in charges.

(3) Changes in charges for terminal services, canal tolls, or other additional charges may be made effective upon a specified date not prior to the date filed with the Commission, provided the charges are not under the control of the carrier or conference, and the agency assessing the charges to the carrier increases the charges without notice or without adequate notice to the carrier or conference. If the tariff separately states the division, rate, or charge accruing to the domestic carrier, and if a change occurs in the division, rate, or charge, the amendment shall contain a statement explaining the change.

AGENCY: Interstate Commerce Commission

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

AMERICAN DISTRIBUTION SYSTEM, INC.--PURCHASE
EXEMPTION--D. E. XPRESS, INC.

Petitioners' representative:
Harry J. Jordan, Esquire
Suite 200
1090 Vermont Avenue, NW
Washington, DC 20005

Comments should refer to No. MC-F-17012.

Under 49 U.S.C. 11343(e) the Commission has exempted, subject to public comment, the purchase by noncarrier American Distribution System, Inc. (ADS), of the interstate and California intrastate operating rights of D. E. Xpress, Inc. (DEX), of Los Angeles, CA, in Certificate MC-178239 (Sub-No. 1) and in CAL T-123857 and CPUC Decision No. 91398, respectively. DEX's interstate certificate authorizes the transportation of general commodities (with exceptions), between points in the Continental United States. Its intrastate rights authorize the regular-route transportation of general commodities (with exceptions), with service at 63 named points and points on or within 15 miles of 30 specified routes, principally situated in Los Angeles County, as well as in portions of Orange, Riverside, and San Bernardino Counties.

ADS is a wholly owned subsidiary of noncarrier ARA Services, Inc. (ARA), which will continue in control of ADS as a carrier upon consummation of the purchase. ADS also controls motor carriers Smith's Transfer Corporation (STC) (MC-110683), Cooper Motor Lines, Inc. (MC-47171), and ARA Trailblazer, Inc. (MC-172735), and motor carrier and property broker ARA-Managed Logistics Systems, Inc. (MC-185046). STC in turn controls motor carrier MR&R Trucking Company (MR&R) (MC-105881). Recently, however, in MC-F-16618, the Commission has exempted from prior regulatory approval the proposed merger of MR&R into STC. NOTE: ADS has filed an application for temporary authority to lease the operating rights of DEX pending the final disposition of the petition for exemption.

KATY INDUSTRIES, INC. - CONTINUANCE IN CONTROL EXEMPTION - MARINER DISTRIBUTORS, INC., AND MISSOURI-KANSAS-TEXAS RAILROAD COMPANY

AGENCY: Interstate Commerce Commission

ACTION: Notice of proposed exemption

SUMMARY: Katy Industries, Inc. (Katy), a noncarrier, has filed a petition under 49 U.S.C. 11343(e) seeking an exemption from the requirement of prior regulatory approval for its continuance in control of Missouri-Kansas-Texas Railroad Company (MKT) and Mariner Distributors, Inc. (Mariner), which is seeking an initial grant of motor carrier authority in No. MC-187373. Mariner is proposing to transport general commodities (with exceptions), between points in the contiguous United States, under continuing contracts with commercial shippers or receivers of such commodities. MKT, a subsidiary of Katy, is a Class I railroad which operates in portions of Nebraska, Iowa, Kansas, Missouri, Oklahoma, and Texas. The continuance in control of a carrier by a person that is not a carrier but that controls any number of carriers may be carried out only under Commission regulation or an exemption from regulation. General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

L. 96-296 (1980) (MCA). Since filing its application, HHGB has been obligated to observe the requirements of the MCA and the standards set forth in our decision implementing Section 14, found in Ex Parte No. 297 (Sub-No. 5), Motor Carrier Rate Bureau - Implementation of P. L. 96-296, 364 I.C.C. 464 (1980) and 364 I.C.C. 921 (1981).

We have provisionally approved HHGB's agreement as consistent with 49 U.S.C. 10706(b) and Ex Parte No. 297 (Sub-No. 5), supra, subject to certain modifications including the following subject areas: identification and description of member carriers; right of independent action; employee docketing; open meetings; quorum standards; final disposition of cases; general standards for member voting and discussion of collectively established rates; single-line rates; general tariff increases or decreases; and zone of freedom rates. We have also offered comments and imposed requirements concerning the agreement generally. HHGB has been directed to file a revised agreement conforming to the imposed conditions within 120 days of service of the decision provisionally approving the agreement.

In light of the complexity of interpretation involved in determining whether the agreement is consistent with the MCA and Ex Parte No. 297 (Sub-No. 5), supra, we request applicant and other interested parties to comment on our interpretation of the controlling statutory and administrative criteria generally, and their application to HHGB's agreement in particular.

A copy of any comments filed with the Commission shall also be served on HHGB, which shall have 15 days from the expiration of the comment period to reply. These comments will be considered in conjunction with our review of the modifications that HHGB must submit to the Commission as a condition precedent to final approval of its agreement.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

SECTION 5a APPLICATION No. 92
(Amendment No. 3)

MAINE MOTOR RATE BUREAU AGREEMENT

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision on reconsideration.

SUMMARY: Pursuant to Section 14(e) of the Motor Carrier Act of 1980 (MCA), Maine Motor Rate Bureau (Maine) filed an application for approval of its collective ratemaking agreement under 49 U.S.C. 10706(b). In a decision noticed at 48 F.R. 53608 (1983), the Commission found Maine's revised ratemaking agreement to be inconsistent in several respects with the MCA and the decisions implementing it. The Commission noted the areas in which the agreement was deficient; ordered a revised agreement to be filed; and solicited public comment on its interpretation and application of specific rate bureau provisions. Maine's revised agreement has not been modified to the extent required by the Commission's earlier decision. The decision on reconsideration reviews the comments that were filed; modifies the language of the prior decision; extends provisional approval; and requires Maine to submit a fully consistent revised agreement.

DATES: This provisional approval of Section 5a Application No. 92 (Amendment No. 3) will expire, and the application will be denied on March 25, 1986, unless prior to that date the Maine Motor Rate Bureau files a revised agreement complying with the requirements stated in the full decision. The decision is effective on the date served.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

MCALLISTER TOWING AND TRANSPORTATION COMPANY, INC., AND
MCALLISTER FEEDER LINES, INC. --PURCHASE EXEMPTION--
NORFOLK, BALTIMORE AND CAROLINA LINE, INCORPORATED

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed exemption.

SUMMARY: McAllister Towing and Transportation Company, Inc. (MTT), McAllister Feeder Lines, Inc. (MFL), both non-carriers, and Norfolk, Baltimore and Carolina Line, Incorporated (NBC) (No. MC-142795), have filed a petition under 49 U.S.C. 11343(e) seeking an exemption from the requirement of prior regulatory approval for the purchase by MTT, and then by MFL, of all the motor operating rights held by NBC. These rights basically authorize (1) the common carrier transportation of (a) general commodities (with exceptions), in containers, between Norfolk, VA and Philadelphia, PA and other named points and (b) general commodities (with exceptions), between points in Virginia, Maryland, Pennsylvania, Delaware, New Jersey, and the District of Columbia; and (2) contract carrier transportation of general commodities (with exceptions), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such

commodities. NBC also holds water carrier operating authority in No. W-595. In a separate proceeding, Finance Dockat No. 30756, McAllister Towing and Transportation Company, Inc., and McAllister Feeder Lines, Inc.--Purchase--Norfolk, Baltimore and Carolina Line, Incorporated, filed November 27, 1985, approval for MTT and then MFL to purchase that authority is pending. NBC also holds property broker authority. However, transfer of this authority is not contemplated in this proceeding. MTT controls three water carriers; namely, McAllister Lighterage Line, Inc. (W-81); McAllister Transport Lines, Inc. (W-457); and Bridgeport and Port Jefferson Steamboat Company (W-271). This common control has been approved in Finance Docket Nos. 16079 and 25091. MFL is a newly-formed, wholly-owned subsidiary of MTT. An application authorizing the temporary lease by MFL of NBC's relevant water and motor operating rights has been approved by the Motor Carrier Board.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interst te or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

SUPPLEMENTAL INFORMATION:

Gold Star holds Broker License No. MC-182125, issued May 23, 1985, authorizing it to engage in operations, in interstate or foreign commerce, as a broker, in arranging for the transportation of general commodities (except household goods), between points in the United States. Gold Star is, at present, a wholly owned subsidiary of TGI, a non-carrier that is in the process of being acquired by Leaseway. This application seeks approval of the change in control of Gold Star that will occur as a consequence of the acquisition of TGI by Leaseway.

Our regulations at 49 C.F.R. 1181.32(b) provide that "If there is a change in the control of a corporation...which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." Applicants assert that the change in control of Gold Star will clearly be in the public interest since it will allow Gold Star to continue to perform service to the public as a property broker as part of the well established and highly experienced family of transportation enterprises controlled by Leaseway. EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

The Automotive Carrier Division of Ryder Systems, Inc.

Composed of M&G Convoy, Inc., F.J. Boutell Driveaway Co. Inc., Commercial Carriers, Inc., Complete Auto Transit, Inc., Janesville Auto Transport Co., and Fleet Carrier Corp.

Decided: January 28, 1986

M&G Convoy, Inc., (MC-20722), F.J. Boutell Driveaway Co., Inc. (MC-3468), Commercial Carriers, Inc. (MC-43038), Complete Auto Transit, Inc. (MC-49368), Janesville Auto Transport Co. (MC-119642), and Fleet Carrier Corporation (MC-41136), a group of carriers affiliated through ownership by Ryder Systems, Inc., and referred to as the Automotive Carrier Division of that company, petition for waiver of Subpart C, Section 1057.22(a) and Section 1057.22(c)(2) and (4) as they relate to the exchange of equipment receipts, with respect to the interchange of equipment between themselves to augment their individual vehicle fleets.

We Find:

Petitioners are all regulated carriers under control of Ryder System, Inc. (RSI) approved by the Commission in a series of proceedings, the latest of which is MC-F-16456 Ryder System, Inc. - Control Exemption - Fleet Carrier Corporation, decided July 8, 1985. All are engaged in the transportation of automobiles and trucks for motor vehicle manufacturers. A common safety program, under the unified control of a Director of Safety for the Automotive Carrier Division of Ryder System, Inc., covers each of the operations.

The individual carriers have significant operating autonomy, however, RSI retains overall control and direction to assure a coordinated effort in achieving all corporate objectives and goals.

In order to effect a more efficient motor carrier system, the petitioners seek a waiver of specific leasing regulations to be applicable when the exchange of equipment is between members of the Automotive Carrier Division of RSI. A similar waiver petition was granted to all members of the division, except Fleet Carrier Corporation, in a Leasing Board Decision served April 8, 1983. (Fleet Carrier Corporation has been added to the RSI group since that time).

The current petition indicates a recognition of the changes that have been made in the leasing regulations applicable to the exchange of equipment between regulated carriers since the previous waiver order was issued. However, in discussing the proposed method of operation, assuming a grant of the requested waiver, references indicating an elimination of vehicle inspections, and retention of driver's logs and physical examinations, are inappropriate. Any waiver of the Commission's leasing regulations (49 C.F.R. Section 1057.22) will have no affect on the need for continued compliance with existing regulations applicable to those items. Such safety issues are under the jurisdiction of the Department of Transportation and are found in Title 49 C.F.R. Chapter III, Parts 400 through 999.

The proposed use of a master lease for the exchange of equipment between the petitioners, as long as it is in compliance with the provisions of Section 1057.22 and except as its provisions may be waived by action on the current petition, is in accord with the Commission's intent in permitting the use of such a document. [Ex Parte No. MC-43 (Sub-No. 14) served November 30, 1984].

The proposed uniformity in vehicle color and the addition of the RSI company logo to all vehicles of the Automotive Carrier Division, as long as such additional identification is not inconsistent with the regulations of 49 C.F.R. Part 1058, is permissable.

We further find that granting the requested waiver of the vehicle identification requirements of Section 1057.22(a) and the equipment receipt requirements of Section 1057.22(c)(2) and (4),when equipment is exchanged between the petitioners, is consistent with past practice and appropriate in fulfilling the Commission's obligation under the goals of the National Transportation Policy at 49 U.S.C. 10101 (a)(2)(C).

It is Ordered:

1. The petition of M&G Convoy, Inc. (MC-20722), F.J. Boutell Driveaway Co. Inc. (MC-3468), Commercial Carriers, Inc. (MC-43038), Complete Auto Transit, Inc. (MC-49368), Janesville Auto Transport Co. (MC-119642) and Fleet Carrier Corporation (MC-41136) requesting waiver of the vehicle identification requirements of Section 1057.22(a) and the equipment receipts requirements of Section 1057.22(c)(2) and (4), when equipment is exchanged between these commonly controlled carriers, is granted. This waiver does not extend to any regulations other than those specifically identified herein.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operaror/carrier lease signed by one of the carriers named above.

PETERLIN CARTAGE CO., MC-67450
FAST FREIGHT, INC., MC-123272

Decided: January 28, 1986

Peterlin Cartage Co., MC-67450 and Fast Freight, Inc., MC-123272 petition for waiver of the equipment identification and written lease requirements of Sections 1057.22(a) and (c) of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057).

We Find:

The petitioners are commonly managed and controlled regulated motor carriers that collectively operate over 145 pieces of automotive equipment transporting property in interstate commerce. Approximately 125 owner operators are utilized by the two companies. Management is centralized in a single president, Mr. Charles Peterlin.

In serving over 550 shippers nationwide, the petitioners exchange equipment between themselves approximately 40 to 50 times per week. They have determined that to abide by and comply with Sections 1057.22(a) and (c) of the leasing regulations (49 CFR Part 1057), each exchange costs their joint operation approximately $15.00. This represents, therefore, an annual expenditure of $30,000 to $37,500. They also cite owner-operator excess costs connected with deadheading, fuel, and equipment wear and tear, as the result of compliance with these specific leasing regulations.

Despite the easing of the rules and regulations under the decision in Ex Parte MC-43 (Sub-No. 14), which permit the use of a Master Lease and the transmission of equipment receipts by mail, telegraph, or other similar means of communication, the petitioners find an undue burden in meeting the requirements of §1057.22(a) and §1057.22(c).

Section 1057.22(a) requires that when trip leasing is conducted between regulated carriers, the equipment must be identified in accordance with Section 1057.11(c). The Commission has, in the past, granted waivers of this requirment to carriers under common control when the equipment owned or under control of those specific carriers is being exchanged between themselves. Where such joint ownership or control exists, the need for vehicle identification is viewed as unnecessary regulation, and in accord with its objective to eliminate such restraints, the Commission does grant waivers. A grant of such a waiver, as requested by this petition, would be consistent with past practice.

Section 1057.22(c) is a leasing regulation that requires (1) a signed agreement between the carriers, (2) a provision in that agreement relating to the lessee's control and responsibility for the operation of the vehicle while in its possession, (3) the use of receipts to identify the time of transfer of possession between the parties, (4) the carrying of a copy of that agreement in the vehicle, and permits (5) the use of a master lease and the transmission of receipts in accordance with the revised section 1057.11(b)(1).

The only portion of §1057.22(c) that in the past has been considered for waiver, when the exchange of equipment is between jointly controlled regulated carriers, has been that relating to the exchange of receipts for the involved equipment. This is item (3) above and found in §1057.22 (c)(2) and (4). All other provisions of §1057.22(c) have been determined to be necessary leasing regulations in that they enable an immediate identity of carrier relationships and indicate the responsibility for the transportation being performed. Such information needs to be available to State or Federal regulatory and law enforcement officials. Thus, the requirement that an agreement be carried in the vehicle is essential particularly in those operations where joint ownership or control exists and the Commission has waived, as a convenience to the involved carriers, the vehicle identification requirements.

For these reasons, the Commission will consider only a partial waiver of §1057.22(c) rather than the requested waiver of the total provision. In keeping with past findings and practices, waiver may be granted for only that provision of §1057.22(c)(2) and (4) that requires the issuance of receipts upon exchange of equipment between the petitioners.

The master lease concept was instigated and established as a means of eliminating the need for execution of an individual lease document at the transfer point when trip leasing is conducted on a regular basis between carriers. The utilization of a Master Lease under the regulations of §1057.22, where a waiver of compliance with the vehicle identification and equipment receipt provisions of that section have been granted, should enable the petitioners to eliminate the major portion, if not all, of the burdens now encountered in the exchange of equipment between themselves.

Therefore, a partial grant of the petition, in accord with the discussion herein, should be made. Such action is consistent with past practices and the obligations of the Commission in furtherance of the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Peterlin Cartage Co., MC-67450 and Fast Freight, Inc., MC-123272, for waiver of Sections 1057.22(a) and 1057.22(c) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057), is partially granted as follows: waiver of 1057.22(a) and 1057.22(c)(2) and (4) insofar as they relate to the identification of vehicles and the issuance of equipment receipts is granted for the exchange of equipment between themselves so long as common control exists. The request for waiver of all other provisions of 1057.22(c) is denied.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

Decided: January 28, 1986

The Contrans, Corp., a non-carrier, and its family of motor carriers, Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express, Inc., MC-180789, Laidlaw Transportation Limited, MC-113784, and Zephyr Transport, Inc.- MC-170981 petition for waiver of Section 1057.22(a) and a portion of 1057.22(c)(2) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

We Find:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under permits or certificates issued by this Commission. Laidlaw Transportation Limited also holds operating authority issued by several Provincial transport boards to conduct similar transportation within Canada.

Contrans Corporation controls Laidlaw Transportation Limited and Zephyr Transport, Inc., under Commission order MC-F-16387. Similar permanent authority is currently being sought, while exercising temporary control under MC-F-16687 TA, for control of Bacon Motor Express, Inc. and Pacemaker Express, Inc.

Petitioners wishing to optimize utilization of the corporate family fleet of vehicles, in conducting the nationwide and foreign transportation service which they have been authorized to perform, will employ prudent exchanges of equipment between the individual members of the group. In an attempt to obtain the maximum potential efficiencies and economies of such exchanges, waiver is sought of those portions of the leasing regulations viewed as creating an unnecessary, since common control exists, administrative burden on the carriers.

Dispatch records and operational logs maintained within the corporate family are available at all times to verify changes in control and responsibility for the operation of the individual vehicles. For these reasons, the petitioners urge that vehicle identification requirements set forth in Section 1057.22(a) and the issuance of receipts required by Section 1057.22(c)(2) be waived, as not needed in the public interest, when equipment is exchanged within the Contrans Corporation family of carriers.

Petitioners agree to compliance with all of the Lease and Interchange of Vehicle regulations, 49 C.F.R. Part 1057, in conducting their operations, however, one of the burdens from which they seek relief is that of issuing equipment receipts. It should be noted that Section 1057(c)(4) requires such receipts in connection with the use of Master Leases. For this reason, any waiver grant should, for consistency, include the receipt requirements of Section 1057(c)(4) as well as Section 1057(c)(2).

We further find that the granting of the petition, modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

It is Ordered:

1. The petition of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express Inc., MC-180789, Laidlaw Transportation Limited, MC-113784, Zephyr Transport, Inc. MC-170981, all members of the Contrans Corporation motor carrier group, for waiver of Sections 1057.22(a) and 1057.22(c)(2), and modified to include 1057.22(c)(4), is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Finance Docket No. 30756

MCALLISTER TOWING AND TRANSPORTATION COMPANY, INC., AND MCALLISTER FEEDER LINES, INC.--PURCHASE--NORFOLK, BALTIMORE AND CAROLINA LINE, INCORPORATED

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed acquisition of water carrier operating authority and other assets under 49 U.S.C. 11343 and notice of approval of waiver of informational filing requirements.

SUMMARY: By application under 49 U.S.C. 11343 McAllister Towing and Transportation Company, Inc. (MTT), and McAllister Feeder Lines, Inc. (MFL), propose to acquire the water carrier operating authority and other assets of Norfolk, Baltimore and Carolina Line, Incorporated, a regulated water carrier operating under Certificate and Permit No. W-595. Under the proposed transaction, MTT will acquire the relevant authorities and then sell them to its newly-formed, wholly-owned subsidiary, MFL. MTT also controls three other water carriers: (1) McAllister Lighterage Line, Inc. (MLL), (W-81); (2) McAllister Transport Lines, Inc. (MTL) (W-457); and (3) Bridgeport and Port Jefferson Steamboat Company (B&PJ) (W-271). This common control has been approved in Finance Docket Nos. 16079 and 25091. MLL and MTL provide a variety of common and contract water carrier services by self-propelled and non-self-propelled vessels along the Atlantic, Gulf and Pacific coasts and tributary waterways, transporting general commodities on behalf of the shipping public. B&PJ provides passenger and property ferry service on Long Island Sound. NBC also holds motor carrier authority in No. MC-142795. In a separate proceeding No. MC-F-16918, McAllister Towing and Transportation Company, Inc. and McAllister Feeder Lines, Inc. -- Purchase Exemption -- Norfolk, Baltimore and Carolina Line, Incorporated, filed November 27, 1985, petitioners seek an exemption of the Commission's regulations for MTT and then MFL to purchase all of the motor rights of NBC. NBC also holds property broker authority. However, transfer of this authority is not contemplated in this proceeding. An application authorizing the temporary lease by MFL of NBC's relevant operating rights (water and motor) has been approved by the Motor Carrier Board. Division 2 of the Commission has granted the parties' request for waiver of a portion of informational filing requirements under 49 CFR 1181.11.

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE NO. MC-73 (Sub-No. 1)

INTERCHANGE POLICIES AT INTERNATIONAL BOUNDARY LINES

AGENCY: Interstate Commerce Commission

ACTION: Discontinuance of proceeding.

SUMMARY: By notice of proposed rulemaking published at 46 FR 32460 (1981), the Commission proposed to reexamine the extent to which it regulates movements by foreign motor carriers transporting transborder traffic between points on the United States' international boundary lines and points within the United States for the sole purpose of interchanging that traffic with U.S. carriers. In view of the lack of public support for any change in existing practice, and subsequent legislation affecting transborder traffic we conclude that the proceeding should be discontinued and the proposed rules withdrawn.

FOR FURTHER INFORMATION CONTACT:

Andrew L. Lyon (202) 275-7805 or Howell I. Sporn (202) 275-7691

SUPPLEMENTARY INFORMATION:

We instituted this rulemaking proceeding to reexamine the present policy of requiring Canadian and Mexican motor carriers to obtain operating authority from the Commission to conduct limited operations within the United States for the ole purpose of interchanging transborder traffic with United States carriers. Because the exchange of goods and equipment cannot be accomplished precisely on the boundary line, entry by foreign carriers into the United States is necessary. These movements require operating authority from the Commission. However, it was suggested that these movements are too insignificant to require this type of regulation and that the activity should continue without unnecessary regulatory burdens on the Commission and foreign carriers.

The rulemaking proposed to address these problems by making two changes in existing practice. The first change would have been made by amending the interchange regulations to allow operations within the United States by a foreign carrier to be conducted under the authority of the licensed interlining U.S. carrier, with the interchange of equipment being considered to occur on the border itself, although the necessary formalities could occur at any point within 5 miles of a boundary line. The second change, intended to address those situations in which the cargo is physically transferred to another carrier, is moving on a through bill of lading, and is being picked up from or delivered to a U.S. carrier, would have been made by disclaiming jurisdiction over all transportation by a foreign carrier within 5 miles of the boundary lines.

The comments do not provide support for either proposal. The proposed disclaimer of jurisdiction drew the strongest objections, with many parties arguing effectively that the burden on the Commission to ensure that unregulated operations remained confined to the 5 mile zone would be greater than that imposed by continuing to process applications for authority to conduct these movements. However, more importantly, neither proposal was viewed as contributing significantly to the smooth flow of commerce across international boundary lines. The parties generally agreed that the present system functions as smoothly as possible, and that the most significant delays are not caused by matters within this Commission's jurisdiction. Those few parties that expressed support for either or both proposals did so in the most general of terms and have not provided any basis upon which we could reasonably justify adoption of either the proposed rules or any modified version of those rules.

In addition, legislation affecting motor carriers passed subsequent to the Motor Carrier Act of 1980 further addressed the issue of trans-border traffic. The proposed rules could interfere with both the Bus Regulatory Reform Act of 1982 and the Motor Carrier Safety Act of 1984, which provides for greater control over motor traffic from foreign countries moving across United States borders.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources, nor will it have a significant effect on a substantial number of small entities.

It is ordered:

This proceeding is discontinued.

This action is taken under the authority of 49 U.S.C. §§10101, 10321, 10762, 10922, and 11101, and 5 U.S.C. §553.

Decided: February 3, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Comments should refer to No. MC-F-17043.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control by Universal Holdings, Ltd. (Universal), a Canadian non-carrier, of Midland Transport Limited (Midland) (MC-150430) and Road & Sea Transport, Inc., a non-carrier that has pending an application in No. MC-189982 seeking contract carrier authority to transport petroleum and its products, and chemicals and related products, between points in the 48 contiguous States, under continuing contract(s) with commercial shippers and receivers of those commodities.

Midland holds common carrier authority to transport general commodities between the 48 contiguous States and nationwide contract carrier authority to transport such commodities as are dealt in by a named manufacturer of tires. Midland and Sunbury Transport Limited (MC-125522 and MC-150332), both Canadian carriers, have common officers and directors, but their relationship and control by Universal were determined by Appellate Division 2 not to be subject to statutory common control provisions. See No. MC-125522 (Sub-No. 12), Sunbury Transport Limited, Ext. -- General Commodities (not printed), served June 16, 1982, and cases cited therein.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:
